

# Firestick Setup

Below are the steps to set up your Firestick for displaying Speak2 signage

---

Step 1: Set up your Firestick following the directions that come in your Firestick package. This will require an Amazon account and your WiFi information.

Step 2: Once active, search the App Store for "Speak2". You will see the Speak2 app, which will have this logo:

Step 3: Open the Speak2 app, and fill in the form with your credentials for that TV. This will be the community ID, Room ID, and the duration you would like your slides to display onscreen.

A screenshot of the Speak2 app configuration screen. It features a dark blue background with white text and input fields. At the top, there is a text input field labeled "Enter Facility Name". Below it is another text input field labeled "Enter Room ID" containing the number "15". A checkbox labeled "Time" is checked. Below the checkbox are four radio button options: "CBS News", "CBS News (US)", "US News" (which is selected), and "Community News". Below these are two more radio button options: "Weather Current" (selected) and "Weather Forecast". Under the heading "Layout", there are four radio button options: "Bottom" (selected), "Top", "Alexa", and "Right". At the bottom of the form are two buttons: "Send" and "Cancel".

## YOUR INFORMATION

- You will be provided details about the configuration of your TVs and Community ID directly and separately from this document.
