

# YOUR COMMUNITY KIOSK

Manage your visitor, staff and resident sign in and sign outs through voice or touch screen. See your data in one place automatically notify everyone with a friendly user interface.

## HOW IT WORKS

Visitors, staff and residents can speak or tap the Alexa screen to sign in. Alexa is a familiar user interface and provides a highly interactive experience for your visitors, staff and residents.

## CONNECTED AND INTERACTIVE

An announcement is automatically sent to the person the guest is visiting via Alexa, text, and/or email. All visits are recorded on the calendar for audit purposes. Easily view questions, visits, and interactions on calendars and reports – whenever you need.

## CONFIGURE YOUR OWN QUESTIONS

Author your own kiosk questions for visitors to answer. Track the information for audits, historical reporting or trends.

Kiosk also marks residents as on/off premise automatically.
