

MESSAGES WITH ALEXA

Use Alexa just like you use your cell phone. Send and receive text messages through your Alexa but with your voice! You can only message those that have been added to your address book.

Alexa, play my messages.

"Hello Mary, you have a new message..."

Alexa will guide you along the way and ask if you'd like to replay or respond back.

How else can I ask for my messages?

- Alexa, what are my messages?
- Alexa, play my messages.
- Alexa, send a message
- Alexa, share a message
- Alexa, send a greeting
